Projects

Portfolio Website | ***Link*** | *Express JS, Reactjs, Node.js, HTML5, CSS3, Bootstrap*   **JULY 2023**

- Extensive use of ***Bootstrap classes*** and ***React icons***
- Used React packages like ***React-Reveal***, ***React-scroll-to-top***, ***Nodemailer***, ***Cors***
- Integrated the functionality of ***light-dark theme*** in the app using ***context-api*** which comes with React
- Made the webpage ***Mobile Friendly*** and ***User Attentive*** using ***CSS media queries*** and ***animations*** from React packages
- ***Deployed*** the webpage on ***Render***

Music player Webpage | *Html, CSS, **Fontawesome***   **January 2023**

- Static Responsive Music Player Website
- Website has Navigation page from where we can return to Home page
- Have used scripts from Fontawesome which has helped me to bring different icons on my webpage.
- Implemented ***CCS media queries*** for making webpage responsive

Experience/Internships

Vjti(Organization) Team Project   **June –July 2023**
Railway Concession Website | ExpressJS, ReactJs, NodeJs, MongoDB, HTML5, CSS3, Bootstrap

- ∗ Working on a actual Railway Concession ***official college website*** created from scratch using ***MERN Stack,*** which will be used by college students once deployed on college servers.
- ∗ Created a user-friendly ***login*** and ***register pages*** for both students and admin.
- ∗ Implemented secure ***authentication*** and ***authorization*** using ***JSON Web Token*** (JWT), including manual ***sign-in/sign-up*** functionality.
- ∗ Implemented functionality which allows users to ***CREATE*** and ***UPDATE*** their profile. Similarly ***admin*** can ***DELETE***, ***READ*** and ***VERIFY user*** profiles

Relevant Coursework

· Data Structures   · Algorithms   · Web Development   · SQL Queries

Certifications

Data, Data, Everywhere | *Foundational course by Google*   **June 2022**
Define and explain key concepts involved in data analytics including data, data analysis, and data ecosystem.
Have learnt about Data Analysis and Data Cleansing.
Have learnt role of spreadsheets, query languages and data visualization in Data Analysis.
